British Corrosion Journal — Annual contents 1999

Corrosion measurements of silver and copper in indoor atmospheres using different evaluation techniques
E. Johansson and C. Leygraf 27
Scanning electron microscopy characterisation of copper corrosion products (patina) formed in tropical humid climate
L. Veleva and M. Luja 34
Electrochemical behaviour of Al, Cu, and Al–Cu alloys in NaOH and HCl solutions
H. A. El Shayeb, F. M. Abd El Wahab, and S. Zein El Abedin 37
Exfoliation corrosion of high strength Al–Cu–Mg alloys: effect of grain structure
M. J. Robinson and N. C. Jackson 45
Molecular structure of heterocyclic compounds and their inhibitive action for corrosion of grade 1100 aluminium in dilute HCl
P. N. S. Yadav 51
Corrosion behaviour of Al–Si/SiC composite in sea water
F. Gnecco and A. M. Beccaria 57
Corrosion of metals and alloys in methane sulphonic acid
B. Gaur and H. S. Srinivasan 63
Electrochemical studies of 254SMO stainless steel in comparison with 316L stainless steel and Hastelloy C276 in phosphoric acid media in absence and presence of chloride ions
L. De Micheli, A. H. P. Andrade, C. A. Barbosa, and S. M. L. Agostinho 67
Corrosion induced failures of oil tubulars from gas wells in Zhongyuan oil field
C. Y. Fu, J. S. Zheng, J. M. Zhao, and W. D. Xu 71
Silicate esters with additives as temporary protectives on steel surfaces
M. Alagar, I. Mohammed Bilal, and V. Mohan 75
Influence of flow conditions on corrosion characteristics of mild steel rotating cylinder in solutions of fatty acids
W. Skinner and W. S. Ernst 79
Fundamentals of corrosion fouling
E. F. C. Somerscales 109
Review of naphthenic acid corrosion in oil refining
E. Slavcheva, B. Shone, and A. Turnbull 125
Polarisation of low phosphorus AISI 304 stainless steel in H_2SO_4 containing arsenite
A. A. Hermas 132
Coupling of superduplex stainless steel and cast nickel–aluminium bronze in sea water
R. Francis 139
Effect of some phenols on corrosion of Al, Cu, and Al–Cu alloys in NaOH solutions
H. A. El Shayeb, F. M. Abd El Wahab, and S. Zein El Abedin 145
Technical note **Evaluation of vapour phase corrosion inhibitors**
W. Skinner, F. du Preez, and E. Vuorinen 151
Review of inorganic coatings and coating processes for reducing wear and corrosion
P. S. Sidky and M. G. Hocking 171
Use of fly ash in high performance industrial coatings
S. Tiwari and M. Saxena 184
Nature of lead patination
L. Black and G. C. Allen 192
Electrochemical behaviour of lead alloys as anodes in zinc electrowinning
M. Petrova, Y. Stefanov, Z. Noncheva, Ts. Dobrev, and St. Rashkov 198
Microstructural and corrosion aspects of alloy 690
R. S. Dutta and R. Tewari 201
Influence of pores on high temperature oxidation of titanium and Ti–3Cu alloy
S. Król 206
Characterisation of sensitisation of type 409 stainless steel
M.-Z. Joe and D.-R. Kim 210
Influence of acetylenic derivatives on corrosion of chromium and chromium containing steels in hot acid solutions
A. Frignani, C. Monticelli, and G. Trabanelli 214
Thioamidines as novel class of corrosion inhibitors
M. Ajmal, J. Rawat, and M. A. Quraishi 220
Control of corrosion in oil and gas production tubing
L. Smith 247
Effect of intermittent cathodic protection on chloride and hydroxyl concentration profiles in reinforced concrete
A. M. Hassanein, G. K. Glass, and N. R. Buenfeld 254
Towards novel ceramic base coating for corrosive wear applications
A. Neville and T. Hodgkiess 262
Composite coatings and their performance in corrosive environment
N. Kouloumbi, G. M. Tsangaris, S. T. Kyvelidis, and G. C. Psarras 267
Optimisation of conversion coatings in phosphoric acid media using statistical experimental designs
S. El Hajjaji, M.-T. Maurette, E. Puech-Costes, A. Ben Bachir, and L. Aries 273
Transition criterion of metastable pitting towards stability for carbon steel in chloride solutions
Y. F. Cheng, M. Wilmott, and J. L. Luo 280
Effect of heat treatment in reducing plasma environments on chloride ion removal and corrosion of oxidised steel artefacts
I. Kotzamanidi, Em. Sarris, P. Vassiliou, C. Kollia, G. D. Kanias, G. J. Varoufakis, and S. E. Filippakis 285
Effects of inorganic sulphide and ammonia on microbial corrosion behaviour of 70Cu–30Ni alloy in sea water
H. M. Shalaby, A. A. Hasan, and F. Al-Sabti 292
Application of semi-ellipse model in impedance studies of corrosion of 63–37 brass in neutral aqueous solutions containing sulphate, ammonium, and chloride ions
I. Dehri and M. Erbil 299
Oxidation behaviour up to 550°C of tin bronze pretreated with benzotriazole
R. Walker 304

Technical note **Electrochemical screening of organic inhibitors for corrosion of UNS N0400 in saturated monoethanolamine solution**
A. Al-Hashem, J. A. Carew, and A. Hasan 310

Bengough Medal 2
Book reviews 106, 246
Conference reports
Eurocorr '98 . . . . . 23, 99
Application of electrochemical techniques to organic coatings 104
Advances in corrosion protection by organic coatings 243
Cormon metal loss measurement for oil and gas industries 4
